Action Contemplated

J. S. R.

(X) 20.000.000 - 10.000.000 = (X) 10.000.000

The objective of this action is immediately to stop a further buildup of an offensive capability in Cuba and ultimately to eliminate it. This initially involves a naval quarantine against offensive weapons within the framework of the OAS and the Rio Treaty. Such a quarantine might be expanded by subsequent steps to cover all types of goods and air transport. The action would be backed up by some form of surveillance of Cuba.

The objective of this action is immediately to stop a further buildup of an offensive capability in Cuba and ultimately to eliminate it. This initially involves a naval blockade against offensive weapons within the framework of the CAS and the Rio Treaty. Such a blockade might be expanded by subsequent steps to cover all types of goods and air transport. The action would be backed up by some form of surveillance of Cuba.
